

T1

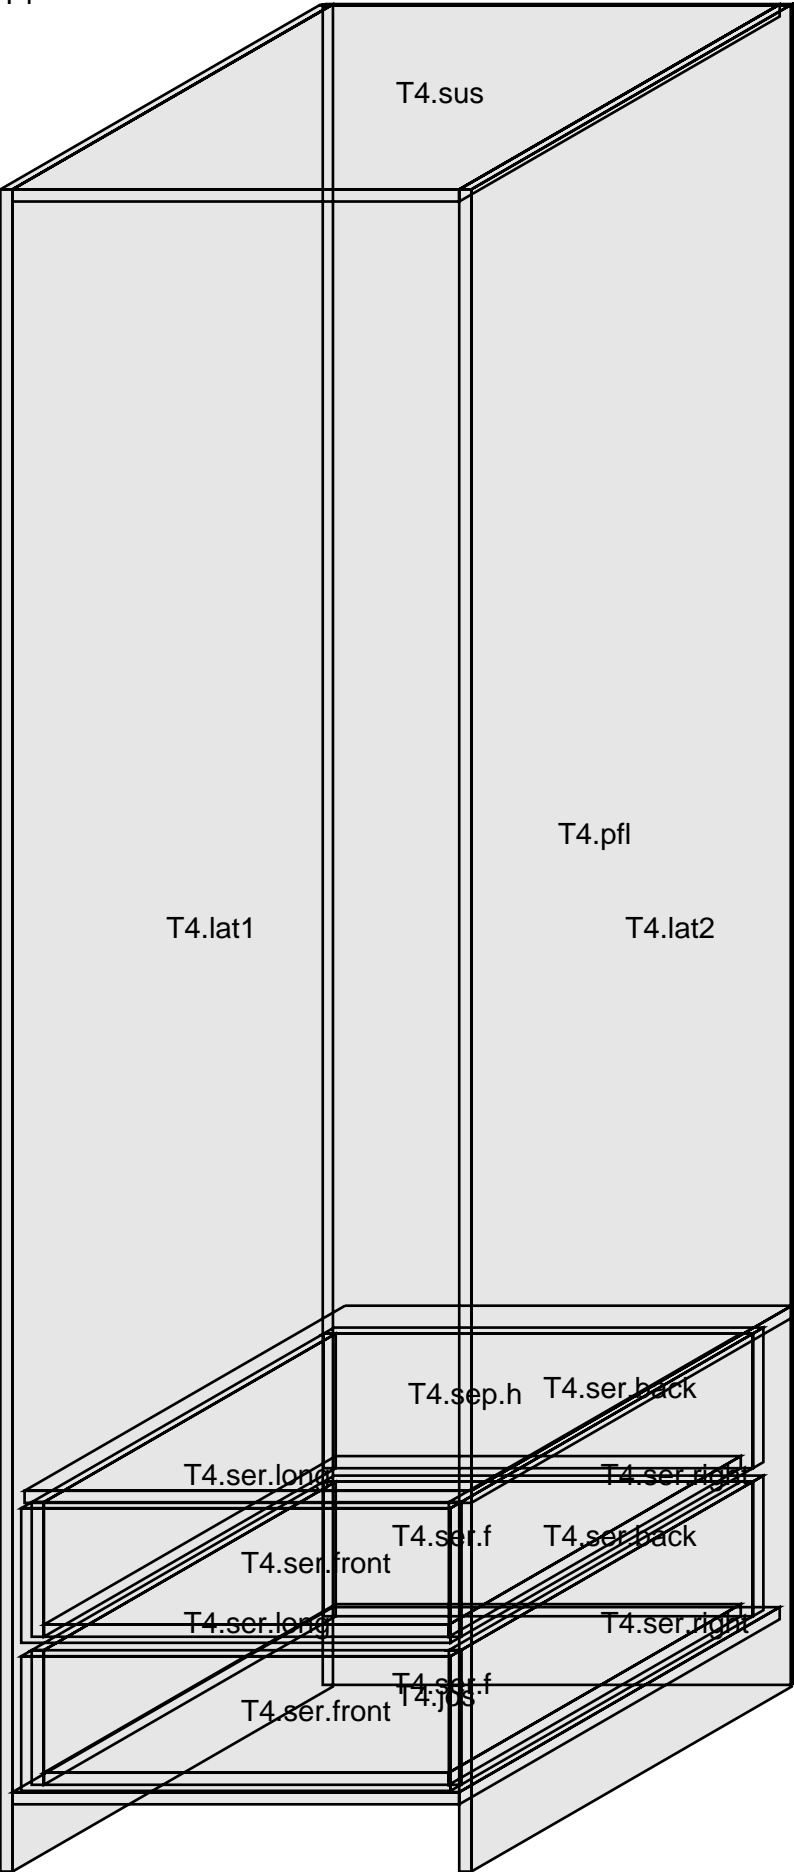

T2

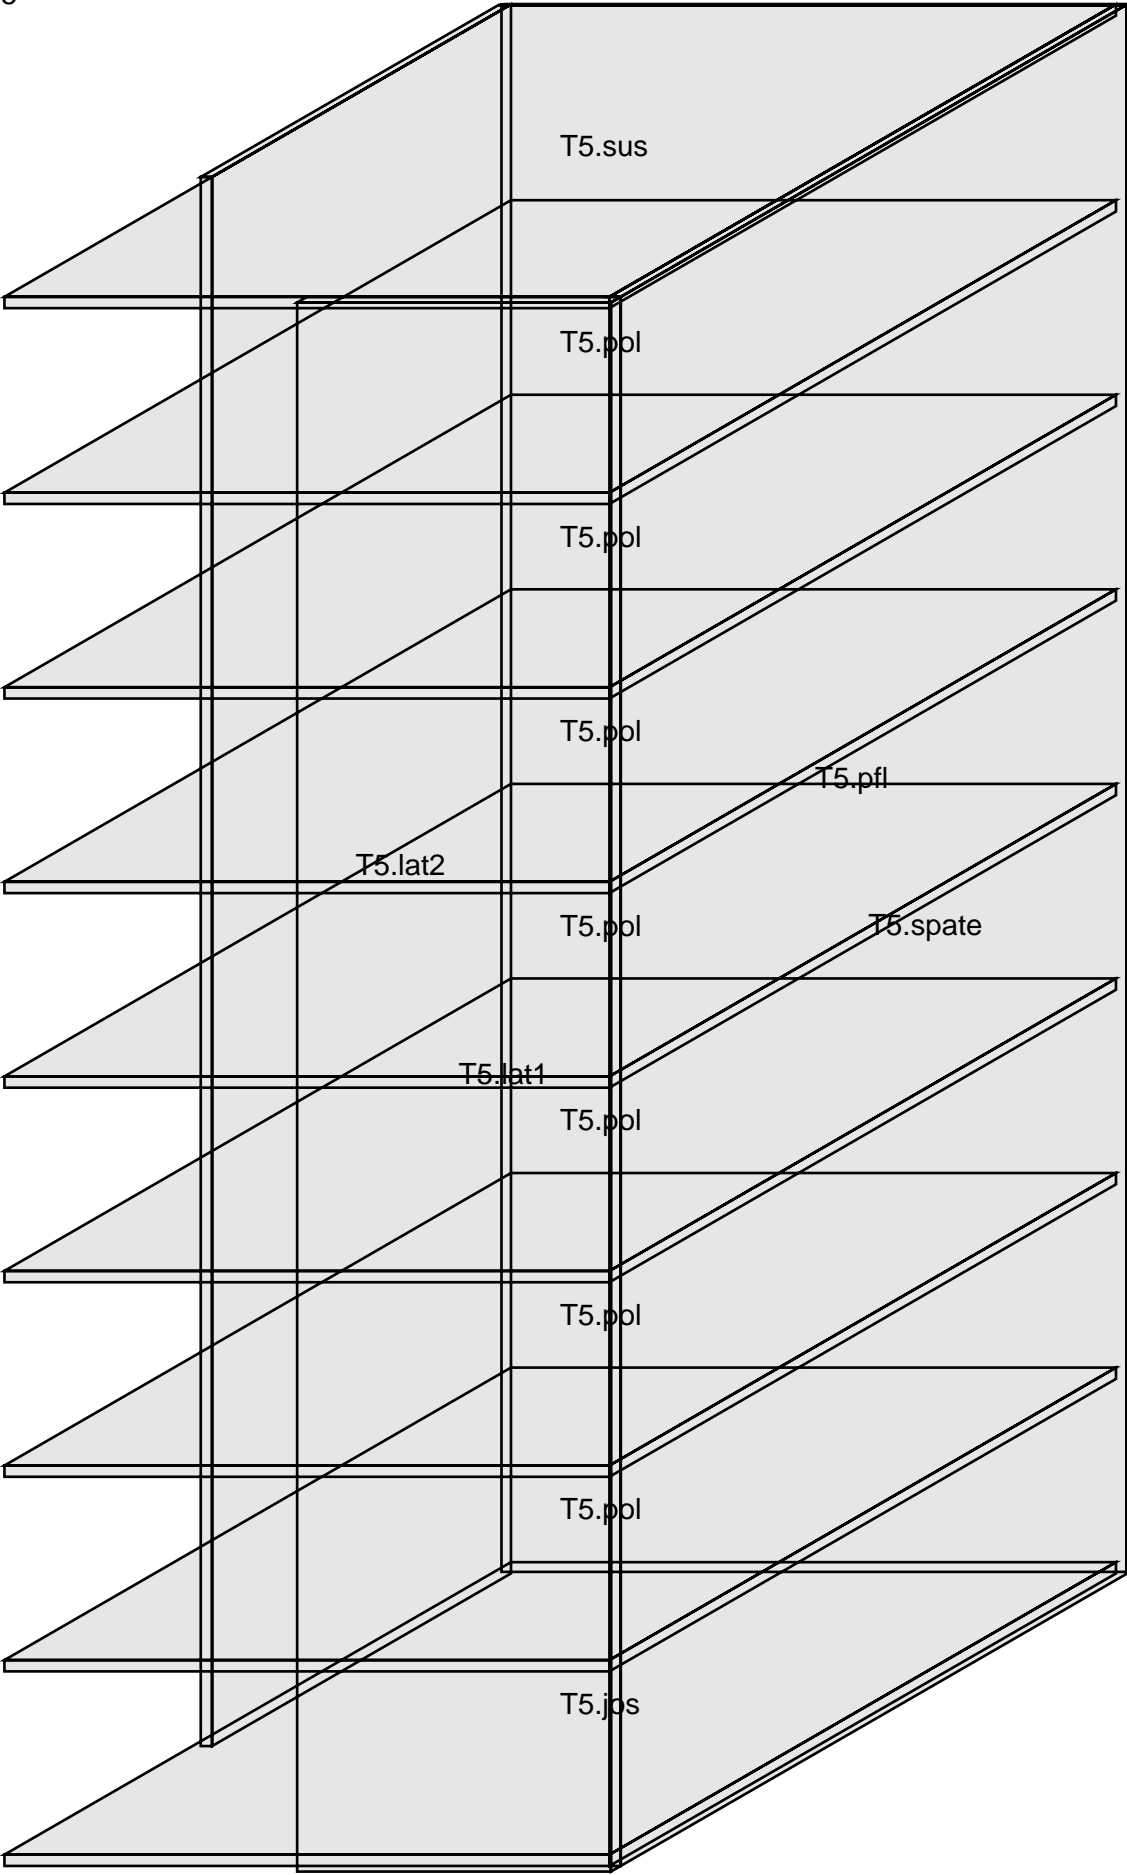

A 3D schematic diagram of a T3 container, showing its internal structure and compartments. The container is divided into several sections, each labeled with a code:

- T3.sus**: The top section, likely for suspended materials.
- T3.pfl**: The middle section, likely for processed materials.
- T3.lat1**: The left side section of the middle compartment.
- T3.lat2**: The right side section of the middle compartment.
- T3.ser.long**: The long side sections of the bottom compartment, located on the left and right.
- T3.ser.front**: The front side sections of the bottom compartment, located on the left and right.
- T3.ser.back**: The back side sections of the bottom compartment, located on the left and right.
- T3.sep.h**: The horizontal separator between the middle and bottom compartments.
- T3.ser.f**: The front side sections of the bottom compartment, located in the center.
- T3.ser.b**: The back side sections of the bottom compartment, located in the center.
- T3.ser.r**: The right side sections of the bottom compartment, located in the center.
- T3.ser.l**: The left side sections of the bottom compartment, located in the center.
